

Date: 22-08-2025 (simplified summary)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ
وَلَا تَقْفُ مَا لَيْسَ لَكَ بِهِ عِلْمٌ إِنَّ السَّمْعَ وَالْبَصَرَ وَالْفُؤَادَ
كُلُّ أُولَئِكَ كَانَ عَنْهُ مَسْئُولًا.
قَالَ رَسُولُ اللَّهِ صَلَّى اللَّهُ عَلَيْهِ وَسَلَّمَ:
لَا تَزُولُ قَدَمَا عَبْدٍ يَوْمَ الْقِيَامَةِ حَتَّى يُسْأَلَ عَنْ عُمُرِهِ فِيمَا
أَفْنَاهُ، وَعَنْ عِلْمِهِ فِيمَ فَعَلَ، وَعَنْ مَالِهِ مِنْ أَيْنَ اكْتَسَبَهُ
وَفِيمَ أَنْفَقَهُ، وَعَنْ جِسْمِهِ فِيمَ أَبْلَاهُ.

OUR TEST WITH TECHNOLOGY (ARTIFICIAL INTELLIGENCE)

Dear brothers and sisters, Islam teaches us that life, reason, and faith must be protected. This also applies to technology. Artificial intelligence offers great benefits. It makes knowledge easier to access and helps us in our daily lives. But there are also risks: violation of privacy, deception, and the devaluation of human labor. Therefore, we must use technology with wisdom and responsibility. A Muslim does not follow every new trend blindly but chooses what is right and just. Our duty is to use these tools within the boundaries of Islamic values. Dear Muslims, let us guide our youth in this matter. May Allah ﷻ bless us with beneficial knowledge, protect us from misuse, and guide us to justice and mercy. *Āmīn*.
